

MPE QUALITY POLICY

The Quality Management System has been established and is maintained in accordance with BS EN ISO 9001:20015

As a supplier of electrical filter products MPE Limited (MPE) is committed to:

- Understand and satisfying customer needs
- Ensuring compliance with statutory and regulatory requirements
- Ensuring product quality whilst measuring process effectiveness
- Providing efficient and cost effective manufacturing solutions
- Continual improvement
- Identifying and meet the needs of the employees
- Ensuring any contracts or orders received are processed in a manner conforming to all required standards including customer specific standards
- Ensuring the effectiveness of the quality policy and policy objectiveness through the Management Review framework
- Reviewing the QMS, Policy and Objectives for continued suitability
- Communicating the QMS, Policy and Objectives throughout the organisation

QUALITY POLICY OBJECTIVES

Via business planning, the following objectives have been set as a means of achieving the above:

1. Enhance customer satisfaction
2. Ensure product / process conformity
3. Develop & maintain efficient business processes
4. Consolidate & Increase company growth

To enable achievement of the above, the MPE management have established a series of measures which are reviewed and communicated to all employees on a regular basis.
